

Users of Our Services

2Collaborate is proud of its track record and rightly so. We have worked with a range of companies to design and deliver mediation and alternative dispute resolution services. From major private companies such as Diageo, Musgraves Cash & Carry and ACC Bank to large and complex government departments including the Department of Health and Children and the Department of the Environment, Heritage and Local Government. We have also been engaged by many public sector and semi-state organisations up and down the country.

Our [client list](#) is impressive and we receive repeat business day after day, week after week and month after month.
